## 为什么光量子能源技术

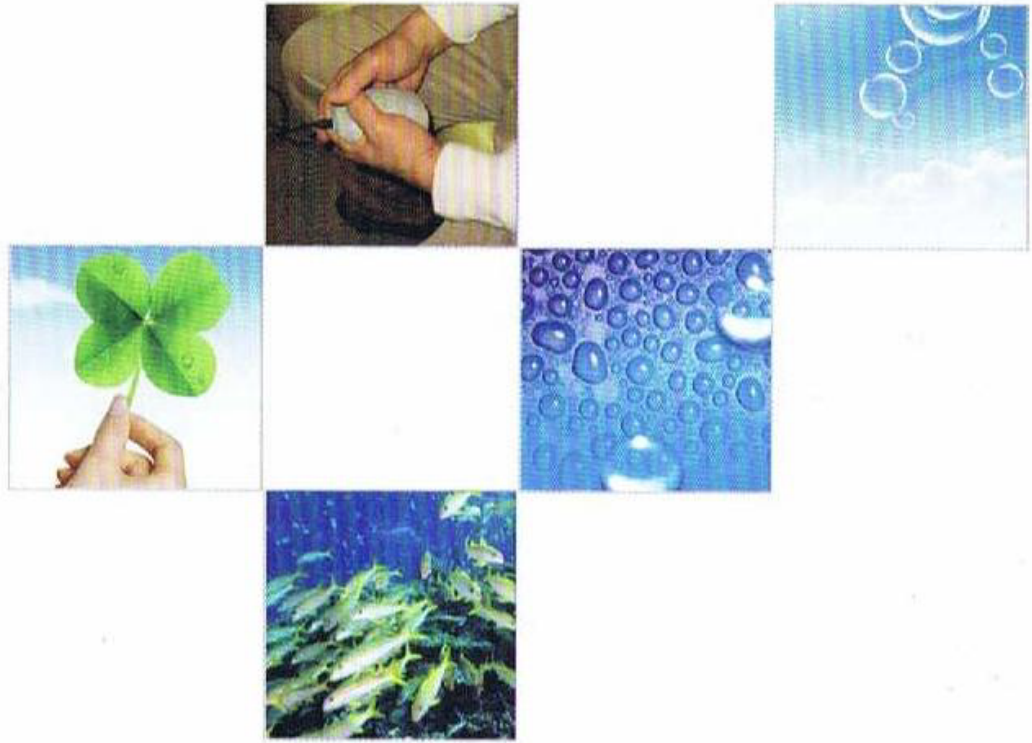

# 能让我们重获健康？ To regain health

### 科学 证实

人体细胞各有各的振动频率，无时无刻不在进行微小的振动。全身细胞会根据神经系统、运输与传递系统、新陈代谢系统等三大主要旋律起舞，彼此呼应，形成人体内的微振大合唱，随着地球每天的自转、月球每月的引力变大、太阳每季造成的季节的交换，做出适当的微调整奏，这样的复杂频率变化，被称为“自然谐和律”。

◎当人体机能失调时，体内的微振会受到影响，这时加入适当频率的能量，与细胞产生共振，就可让原来紊乱的分子整齐地运动起来，促进细胞的新陈代谢，进而调节生理节奏，使其恢复到正常状态，帮助治愈疾病，这就是光量子能源影响人体健康的理论基础。

## Why photon energy technologies can let us regain health?

◆Science confirmed: Human cells have their own vibration frequency, and the small vibration is all the time. According to the three major systems—nervous systems, transport and delivery system, metabolic system, human cells will vibrate with their frequency and come into being a unity. With the daily rotation of the Earth, the moon's gravity larger each month, every season, change of each quarter made by sun, the frequency will adjust a little and this phenomenon known as the "harmony of natural law."

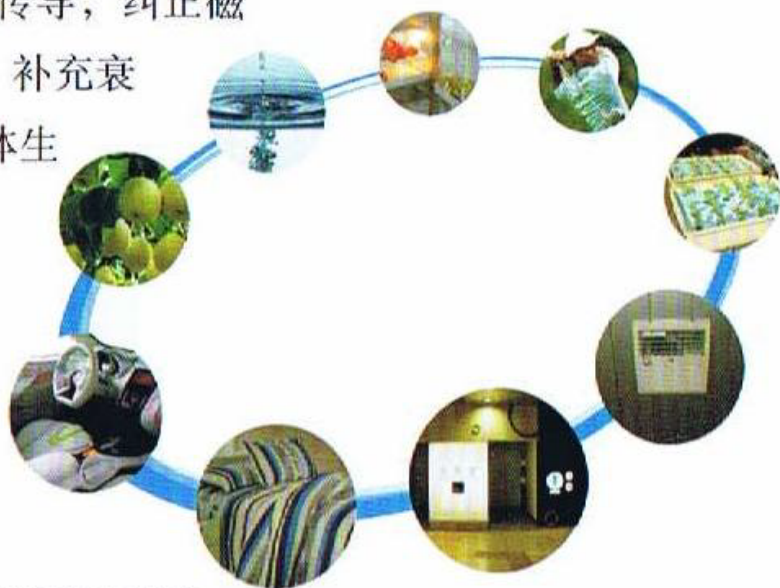

◆When bodily function lose the balance, human cells frequency will be affected. If add the fit frequency energy at this moment and produce resonance, the molecule that is disorder will motion normally to improve the cells' metabolism so that adjust rate of physical and recover normal state to help cure disease. This is the energy of light quantum theory to human health.

◎没有太阳就没有我们人类。我们人类只有摄取了太阳能才能够继续生存下去。因此齐藤秀彦先生带领日本空水光研究所的科学家们开发出了,最接近地球充满活力环境下的,可人工产生太阳能(Q-BIT能源/Quantum bit energy)的“光量子能源技术”。

◎量子是一种有非连续运动能量波的微粒子,量子的大小比原子核的核外电子还小,是比纳米更小的微粒,因此它能够进入人体细胞。

◎长寿の宝<sup>®</sup> Q-BIT光量子能量芯片释放的光量子能量可与人体细胞的磁场能量形成共振和传导,纠正磁场波动混乱的细胞,修复受损细胞,补充衰弱细胞能量,激发自身活力,提高人体生命力,从而让身体恢复健康状态。

◎同时,它也可以帮助动植物、水、空气等恢复其原有的健康“姿态”,并产生强大的生命力和自我修复能力。

◆Without the sun we could not live in the earth. We humans can only survive with the energy of sun. Therefore Mr. Saitou Hidehiko led the scientists of Kusuikou Technical Laboratory to develop and research the solar energy (quantum bit energy) which can be produced by manpower under the closest approach to earth environment . "

◆Quantum is energy wave particles with discontinuous movement. Its size is smaller than the nuclei of the extranuclear electron , so that it can enter human cells.

◆The longlife jewel Q-BIT photon energy chips releases light quantum energy which can make up resonance and transmission with magnetic field of body cells to correct the magnetic field fluctuations in the chaotic cells, repair damaged cells, add energy for weak cells to stimulate its own vitality, enhance the vitality of human , so that allowing the body to restore health.

◆It also can help plants , animals, water and air restore to its original healthy "attitude"and have a strong vitality and self-repair capacity.

## Magic ore

◆40 billion years ago,there is no organism in the earth, air, rocks and water is the only raw materials in the early earth and the first organism was builded by these three original materials.

◆Minerals, especially the selection of this product , catalyzed key chemical reaction and played an important role in the process of forming life. A series of chemical changes,made air, water, simple ingredients of minerals to assemble a group of carbon molecules with replication, then the most primitive life was born.

◆After special treatment, trace elements in the ore , play a useful role in the human body to produce the effect of anti-cancer, anti-aging, preventing arteriosclerosis and high blood pressure . The ore's energy can improve the ability of body's cells to restore the young state of aging organs and tissues, increase the content of blood oxygen, promote metabolism, eliminate toxins , clear a variety of deadly lesion, enhance immunity and prolong pepple's life.
